- wilson humane society wilson nc: Roots to Risen** Dr. Cathy Sauls, 2022-03-16 In this highly transparent and factual memoir, the author shows her audience what childhood oppression, apathy, and silence look like to a little girl who grows up to defy the odds after years of blundering. She doesn't blame her parents, who were supposed to prepare her for adulthood, because her love for them outweighs any faults. While sharing her struggles, failures, and mistakes, the author discusses how blunders can be rectified and avoided. This nonfictional memoir reminds every parent that the children they bring into the world need attention, encouragement, training, guidance, patience, a voice, and unconditional love. It is a fact that we are born into families that we did not choose;

therefore, we will conform to our caretaker's culture, customs, and beliefs. These are our roots. But when we reach the age of accountability, we should draw from what our caretakers and teachers have taught us about life. If there is no preparation, we won't succeed. As children move into adulthood, they must learn from their failures and successes and allow their experiences and training to lead them in making good choices. If parents do not prepare them for this critical step, the transition into adulthood will not be easily attained or realized by the child. Failure then causes some children to become wayward, confused, blunderers, and resigned to success. Note, it is a child's responsibility to grasp what is being taught, but if there is no teaching, the child falls short. As I was writing my memoir, I thought about something that Brene Brown said, One day you will tell your story of how you overcame what you went through, and it will be someone else's survival guide. I hope that my story will be your lifeline, or perhaps, your adult child's guide to parenting.
