willow bend family medicine: The Cassowary; What Chanced in the Cleft Mountains Stanley Waterloo, 2023-09-17 Stanley Waterloo's novel, 'The Cassowary; What Chanced in the Cleft Mountains,' is a riveting tale set amidst the backdrop of the mysterious Cleft Mountains. The book combines elements of adventure and mystery, making it a captivating read for those interested in exploring uncharted territories. Waterloo's prose is vivid and descriptive, painting a vivid picture of the rugged terrain and untamed wilderness that the characters navigate. The narrative style of the book is reminiscent of classic adventure novels, with a strong focus on character development and thematic depth. Readers will find themselves immersed in a world filled with danger, intrigue, and unexpected discoveries. Stanley Waterloo, a seasoned writer known for his works in the adventure genre, brings his expertise to 'The Cassowary,' seamlessly blending fiction with historical accuracy and cultural insight. His rich storytelling and attention to detail make this novel a compelling read for anyone looking for a thrilling escapade into the unknown. I highly recommend 'The Cassowary' to readers who enjoy tales of exploration, survival, and the unyielding spirit of discovery.

willow bend family medicine: Remembering Lucile Polly E. Bugros McLean, 2018-09-28 In 1918 Lucile Berkeley Buchanan Jones received her bachelor's degree from the University of Colorado, becoming its first female African American graduate (though she was not allowed to walk at graduation, nor is she pictured in the 1918 CU yearbook). In *Remembering Lucile*, author Polly McLean depicts the rise of the African American middle class through the historical journey of Lucile and her family from slavery in northern Virginia to life in the American West, using their personal story as a lens through which to examine the greater experience of middle-class Blacks in the early twentieth century. The first-born daughter of emancipated slaves, Lucile refused to be defined by the racist and sexist climate of her times, settling on a career path in teaching that required great courage in the face of pernicious Jim Crow laws. Embracing her sister's dream for higher education and W. E. B. Du Bois's ideology, she placed education and intelligence at the forefront of her life, teaching in places where she could most benefit African American students. Over her 105 years she was an eyewitness to spectacular, inspiring, and tragic moments in American history, including horrific lynchings and systemic racism in housing and business opportunities, as well as the success of women's suffrage and Black-owned businesses and educational institutions. *Remembering Lucile* employs a unique blend of Black feminist historiography and wider discussions of race, gender, class, religion, politics, and education to illuminate major events in African American history and culture, as well as the history of the University of Colorado and its relationship to Black students and alumni, as it has evolved from institutional racism to welcoming acceptance. This extensive biography paints a vivid picture of a strong, extraordinary Black woman who witnessed an extraordinary time in America and rectifies her omission from CU's institutional history. The book fills an important gap in the literature of the history of Blacks in the Rocky Mountain region and will be of significance to anyone interested in American history. willow bend family medicine: Colonial Chesapeake Families: British Origins and Descendants 2Nd Edition Harrison Dwight Cavanagh, 2017-04-18 Colonial Chesapeake Families: British Origins and Descendants Harrison Dwight Cavanagh The first edition was awarded the Sumner A. Parker Prize by the Maryland Historical Society in 2014. The second edition of this work features all descendants of Thomas Gantt I (b. Bullwick, N. Hants; to Md. 1654; d. Calvert County, 1692) and Ann Fielder (b. ca. 1662 Hants; d. Prince Georges County, 1726) in the first six to ten generations. Ann Fielder is an important new addition to American colonial Gateway ancestors. Her parents, Capt. William Fielder (ca. 1620-1679) of Burrough Court Manor and Marjorie Cole (1628-1699) of Lyss Abbey, Hants, have proven multiple royal and Magna Carta ancestral lines; sixty extensive British pedigrees are documented in these volumes. The name Fielder has been inherited in multiple generations of the Beall, Belt, Berry, Bowie, Calvert, Clagett, Denwood, Dorsett, Gantt, Jones (Somerset County), Parker (Calvert County), Smallwood, Smith (Calvert County), and Wight (White) Maryland families. In addition, this second edition contains important new research findings on the British origins of the Hatton-Domville and Brooke-Darnall families, as well as revealing the two lost Ann Bradfords of Prince Georges County. Colonial Chesapeake Families details the pedigrees of eighty-eight families, historical illustrations, portraits, documents, and coats of arms

(where proven) are included. The publication of these volumes has been subsidized to make them more widely available to the thousands of descendants listed in their pages. And thanks to print on demand, Colonial Chesapeake Families will never go out of print.
