willow creek leadership summit 2023: Diversity in Construction – The Gamechangers Bianca Christina Weber-Lewerenz, 2024-12-24 The book explains why innovation and new digital technologies in the construction industry and beyond are largely dependent on a new culture of thinking. Personal experience reports from user practice and insights into research show the many human and technical potentials that have so far been insufficiently utilised. The book provides examples of how digital change can be shaped in a meaningful and constructive way. It looks back at the historical development of diversity in construction and highlights entrepreneurial paths towards

a more diverse working culture, but also identifies the problem areas that hinder the innovation process. A variety of calls for action are derived from the inventory 'Where do we stand?' and the question 'Where do we want (need) to go?'. Diversity is the key to success. This realisation is important in order to set the course for an innovative, sustainable construction industry now. The book identifies the key factors and core competences at all levels that are decisive for promoting diversity and innovation. If it utilises these consistently, the construction industry can take on a pioneering role at home and abroad.

willow creek leadership summit 2023: *Jesus v. Evangelicals* Constantine R. Campbell, 2023-01-17 American evangelicalism is at a crisis point. The naked grasping at political power at the expense of moral credibility has revealed a movement in disarray. Evangelicals are now faced with a quandary: will they double-down and continue along this perilous path, or will they stop, reflect, and change course? And while support of Donald Trump has produced the tipping point of the evangelical crisis, it is not by any means its only problem. Evangelicals claim the Bible as the supreme authority in matters of faith. But in reality, it is particular readings of the Bible that govern evangelical faith. Some evangelical readings of the Bible can be highly selective. They distort the Bible's teaching in crucial ways and often lead evangelicals to misguided attempts to relate to the world around them. Many Christians who once self-professed as evangelicals can no longer use the term of themselves because of what it has come to represent--power-mongering, divisiveness, judgementalism, hypocrisy, pride, greed. Some leave not just evangelicalism but Christianity for good. *Jesus v. Evangelicals* is an insider's critique of the evangelical movement according to its own rules. Since evangelicals regard themselves governed by the Bible, biblical scholar Constantine Campbell engages the Bible to critique evangelicals and to call out the problems within the contemporary evangelical movement. By revealing evangelical distortions of the Bible, this book seeks to restore the dignity of the Christian faith and to renew public interest in Jesus, while calling evangelicals back to his teaching. Constantine Campbell appeals to evangelicals to break free from the grid that has distorted their understanding of the Bible and to restore public respect for Christianity in spite of its misrepresentations by the evangelical church.

willow creek leadership summit 2023: Caught in the Current Sam Reimer, 2023-04-15 Evangelical Christianity is known for its defence of traditional Christian teachings and resistance to liberalizing trends. Many Western evangelicals themselves do not yet realize how their faith is being reshaped by the modern zeitgeist. *Caught in the Current* explores how and why Western evangelicals are changing. Church attendance is declining, conservative moral positions are unpopular, and young people are drifting away from the faith. Evangelism is avoided, so few are joining congregations. Yet these surface changes are only symptoms of a more profound shift that church leaders have not fully apprehended. Drawing upon 125 interviews with British and Canadian clergy and active laity, Sam Reimer argues that evangelicals have been deeply influenced by a post-Christian culture that has rejected institutional religious authority and embraced self-spirituality. As individual evangelicals struggle to navigate these waters, and to distance themselves from politicized evangelicalism in the United States, they are caught between conformity and resistance, between faithfulness to church moral teachings and accommodation of secular values. Many are responding by turning inward to define their Christian beliefs for themselves. The ironic result is that the decline of institutional religious authority is not happening just in Western culture, but within evangelical churches as well. *Caught in the Current* is an insightful and nuanced assessment of how British and Canadian evangelicals are navigating a post-Christian culture, often in ways that are distinct from how their counterparts in the United States approach it.

willow creek leadership summit 2023: China's Blueprint for Global Leadership: GSI, GDI, GCI and Xi Jinping's Vision for the International Order Matteo Dian, Silvia Menegazzi, 2025-09-30 China's Blueprint for Global Leadership offers the first comprehensive academic analysis of China's Three Major Initiatives—the Global Security Initiative (GSI), the Global Development Initiative (GDI), and the Global Civilization Initiative (GCI)—launched between 2021 and 2023. The book analyses the origin, content, and likely consequences of these flagship proposals, placing them within the broader framework of China's foreign policy strategy during the Xi era. The authors explore how, through the GSI, GDI and GCI, Beijing seeks to present a coherent global vision that spans the realms of security, development, and political ideology. In doing so, China proposes itself as a leader beyond its immediate region—particularly for the Global South and the BRICS coalition.

willow creek leadership summit 2023: Non-Western Middle Powers in the Multipolar Order Hanna Samir Kassab, Natalie Ann Ghosn, 2025-08-05 Non-Western Middle Powers in the Multipolar Order explores the changing international order, articulating the critical and growing importance of non-Western states to the emerging global order. It brings together international scholars to provide new insights on the evolution of international order, as global politics moves from an American-Western dominated one to one where major players are from the Global South. They present evidence from Brazil, Turkey, Saudi Arabia, the UAE, and India, which help explain, analyze, and understand the main political, security, and economic challenges in these countries. Questions asked include: What factors explain the rise of new non-Western middle powers? How would theories of international relations, specifically realism, liberalism, and Marxism, change due to their rise? How would the rise of these non-Western middle powers shape the emerging multipolar order? An invaluable collection for scholars and students of International Relations and International Security, that will also be of great interest to scholars with a broader interest in the

ever-evolving world order.
