wings financial cu login: *The Financial Activist Playbook* Jasmine Rashid, 2024-09-10 The first and only comprehensive resource designed to empower everyday people with insider knowledge on moving money for a more equitable economy. The money myths end here. We don't need to choose between creating meaningful wealth for ourselves and our families today, or supporting social movements creating a better tomorrow. We don't all need to become certified financial experts to be economically empowered and make a real difference in our communities. And we're far from powerless when it comes to changing the financial system, just because we don't happen to belong to the 1%. Quite the opposite. Financial activism is how everyday people radically reimagine money as a tool for widespread well-being, instead of a weapon of absurdly increasing inequality. It's the antidote to traditional finance that evokes confusion, trauma, and (in the best-case scenario) straight-up boredom. It's how we-the underestimated-collectively resist systems that cause harm to people and the planet for the sake of profit, reclaim wealth that's been stolen, and redesign our relationships with capital and one another, in ways big and small. Going beyond tried financial literacy, *The Financial Activist Playbook* offers eight accessible, actionable, choose-your-own-adventure strategies for readers to experiment with. Drawing on timely insider knowledge from the worlds of impact investing, social justice, and more, Rashid illuminates a treasure trove of stories: demonstrating how people power can flow big bucks out of extractive industries, and into the economy of care and abundance we deserve. Playbook readers will be equipped to start visualizing and influencing the unique networks of wealth all around each of us, with strategies like Shifting collective budgets and bank dollars; Flexing our role as everyday philanthropists; Leveraging the magic of community investment; And so much more. Laced with refreshing humor, empowering exercises, and a steadfast commitment to truth-telling, Rashid takes readers on an energizing ride of financial possibility and practicality that will reverberate for generations to come.

Mehrsa Baradaran examines how a significant portion of the population, deserted by banks, is forced to wander through a Wild West of payday lenders and check-cashing services to cover emergency expenses and pay for

necessities—all thanks to deregulation that began in the 1970s and continues decades later.

“Baradaran argues persuasively that the banking industry, fattened on public subsidies (including too-big-to-fail bailouts), owes low-income families a better deal...How the Other Half Banks is well researched and clearly written...The bankers who fully understand the system are heavily invested in it. Books like this are written for the rest of us.” —Nancy Folbre, New York Times Book Review
