winning the war in your mind workbook: Winning the War in Your Mind Workbook

Craig Groeschel, 2021-06-15 In this twelve-lesson workbook, pastor and New York Times bestselling author Craig Groeschel pairs modern psychology and biblical teaching to reveal how to win the war in your mind and restore daily peace in your life. What you think shapes who you are. If your thoughts are out of control, your life will be as well. Both the Bible and modern science provide evidence that this is true. In recent years, a discipline of psychology called cognitive behavioral therapy has gained popularity. This discipline is rooted in an understanding that many problems--from eating disorders to relational challenges, addictions, and even some forms of depression--are rooted in negative patterns of thinking. Treating those problems begins with changing that thinking. This has many parallels with Scripture. In Paul's letter to the Philippians, he writes about turning our thoughts to certain types of things (truth, purity, loveliness...) and putting them into practice so that we experience God's peace. In this workbook, Craig goes deeper into the principles outlined in his book (sold separately) to reveal the strategies he has discovered that will change your mind and, by extension, your life for the long-term. Each lesson includes biblical exploration, reflection and application questions, and practical exercises to help you: Gain insight into how your brain works and how your thoughts affect your reality. Identify your destructive

thought patterns and eliminate them from your life. Become a thought warrior and replace the enemy's lies with God's truth. God has something better for your life than your old ways of thinking. It's time to change your mind so God can change your life.

winning the war in your mind workbook: Lead Like It Matters Workbook Craig Groeschel, 2022-08-16 In this workbook companion to the book Lead Like It Matters, discover the trick to keeping the momentum going in your church, ministry, or organization. It has been rightly said that Jesus is the hope of the world. While we can never argue against the importance of the power of the risen Son of God, it is also true that the local church is the hope of the world. After all, the church is the body of Christ. Jesus manifested himself through the church. And we, as the church, are chosen and called by God to be light in the darkness and give hope to the hopeless. For this reason, it is critical for the body of Christ—both pastors and laypeople alike—to learn how to lead like it matters. In this study guide, which accompanies the book of the same name, pastor and bestselling author Craig Groeschel shares what he has learned in more than twenty-six years of leading LifeChurch.

The church began in a borrowed two-car garage, with ratty furnishings and faulty audiovisual equipment, but people were drawn there because they sensed a powerful, life-changing force that Craig calls it. While exactly what it is can be difficult to define, Craig reveals seven factors that contribute to it (or at least don't kill it): Sessions include: Vision Divine Focus Unmistakable Camaraderie Innovative Minds Willingness to Fall Short Hearts Focused Outward Kingdom-Mindedness Craig also unpacks three important realms that every leader must master: (1) prioritizing mindset over model, (2) creating systems that empower it, and (3) finding a balanced way to lead to stay centered around it. While adopting these seven factors and realms will not guarantee a church will have that it factor, it will certainly lead that church toward it. It will help all of us lead like it matters.

winning the war in your mind workbook: Summary for Winning the War in Your Mind

Life Lessons, 2021-03-08 Note to Readers: This is an unofficial summary & analysis of Craig Groeschel's Winning the war in your mind designed to enrich your reading experience. Life Lessons is wholly responsible for this content and is not associated with the original author in any way.-Winning the War in Your mind, by Craig Groeschel begins with the author stating his belief that a person's life will follow the direction of their thoughts. Groeschel--who is the founder and pastor of an American evangelical church--offers up an example by quoting the apostle Paul. Paul is working through a problem and he begins with a thought, moves on to an action, and then finishes with the experience. Groeschel compares this process to cognitive behavioral therapy, which, among other problems, has been used to treat addiction and eating disorders. This particular type of psychological therapy aims to treat problems by changing the way people think; to take a person's negative thoughts and turn them into something positive. To Groeschel, cognitive behavioral therapy is further evidence that the Bible and modern psychology are in line with one another, and that the power of positive thinking can have a huge impact on the direction one's life will take. Taking this theory into account, the author wrote Winning the War in Your Mind based on the premise that if our thoughts can have an impact on where our life will take us, then we need to thoroughly consider the direction they are going in. Winning the War in Your Mind is separated into four sections, which are each further broken down into three chapters. Part one looks at the lies we tell ourselves, and where they come from. The author looks at the mind as a war zone, where there is a constant battle between good and evil. Evil uses lies to make a person think negative thoughts, which in turn holds them back from living a fulfilling life. The first section of the book looks at exposing these lies and replacing them with the truth of God's words.

winning the war in your mind workbook: How to Win the War Against Yourself Today

Adam Spitler, 2025-08-01 Insanity best describes the year 2025. This presents a new challenge of preserving our own sanity. This is an inside job. This book was designed to help get on track and refine yourself in a positive way. People are driven by fear and desperation which cannot end well. We can empower ourselves for resilience and wellbeing. This will create a forcefield of protection and all-around security. This book offers another view and pathway through the simple but complex realm of how your mind can keep you well. A process made simple allowing for the ability to watch and observe emotions and thoughts. The thought processing is a subconscious program dialed in and locked tight. I'm suggesting a quick release from thoughts that can drag you down and keep you down. The book explains how the past is altered enroute to the now and forwarded to the future. The author calls this the PPF loop. He explains how this is the motion of time as most of us know it. Real time is immovable and cannot be budged. This is how and why we live within the program of the past which constantly gets forwarded to the future perpetually replicating what we do not want. With guilt we suggest sin rather than seeing it as ego beating us down and keeping us stuck. The book clears up the spring and breaks things down into a simple understanding of why we think the way we do. Looking at the modern world and the chaos within it can lead to fear and panic. How we interpret and perceive this will affect how we react and how it ends. Meditation cannot be achieved when too many people are telling you how to do it. That's authoritarian. Meditation is about freedom. It's a process of stopping time and holding a thought, or no thought. To change time by

realizing you can stop the movement from the past, through the present into your future. This transforms time into eternity. The book looks at the chemistry of the brain and how it all ties together. Wave energy which everything emits including light and smell which is translated into vibrations released and received by fellow humans and animals. This relates to attraction, success and well-being. The book helps to understand self-sabotage, Instinct and behavior, Habit reversal, dopamine and motivation, personal dialog with yourself, refining thoughts and how to shut things down as a means of self-preservation. Sugar and depression. Nutrition and depression. Addictions and destructions and how to wipe them out. The dangers of boredom and the need for excitement, laughter and play.

winning the war in your mind workbook: The Anorexia Workbook Michelle Heffner, Georg H. Eifert, 2004-05-01 Statistics suggests that as many as 2.5 percent of American women suffer from anorexia; of these, further research indicates that one in ten of these will die from the disorder. This is the only book available that addresses the particular needs of anorexics with the techniques of acceptance and commitment therapy (ACT), a revolutionary new psychotherapy. The authors of this book are pioneering researchers in the field of ACT, with numerous research articles to their credit. Despite ever-widening media attention and public awareness of the problem, American women continue to suffer from anorexia nervosa in greater numbers than ever before. This severe psychophysiological condition-characterized by an abnormal fear of becoming obese, a persistent unwillingness to eat, and severe compulsion to lose weight-is particularly difficult to treat, often because the victims are unwilling to seek help. The Anorexia Workbook demonstrates that efforts to control and stop anorexia may do more harm than good. Instead of focusing efforts on judging impulses associated with the disorder as 'bad' or 'negative,' this approach encourages sufferers to mindfully observe these feelings without reacting to them in a self-destructive way. Guided by this more compassionate, more receptive frame of mind, the book coaches you to employ various acceptance-based coping strategies. Structured in a logical, step-by-step progression of exercises, the workbook first focuses on providing you with a new understanding of anorexia and the ways you might have already tried to control the problem. Then the book progresses through techniques that teach how to use mindfulness to deal with out-of-control thoughts and feelings, how to identify choices that lead to better health and quality of life, and how to redirect the energy formerly spent on weight loss into actions that will heal the body and mind. Although this book is written specifically as self-help for anorexia sufferers, it includes a clear and informative chapter on when you need to seek professional treatment as well as advice on what to look for in a therapist.
