Starks, 2015-10-21 This encouraging guide coaches African American and first-generation college students on strategies for maximizing their experiences and success on university campuses. Marked gaps in academic achievements continue to exist between white and black students on college campuses in America. This motivational book, with contributions from academic role models from within the African American community, provides tools to help ethnically diverse students choose the best college, improve their study skills, and cope with academic anxiety. From college selection to graduation, this practical resource provides firsthand accounts of successful college experiences and the strategies used by former students to obtain their degrees. This work is divided into four parts. After an introductory section that addresses how to find the right college for aspiring students, the second part discusses the culture of an academic environment and reveals what incoming students may discover on a new campus. The third section introduces the language and lingo used in college settings. Finally, the guide concludes with conversations with successful African Americans who have achieved their undergraduate, graduate, and professional degrees. The content also features a helpful college and university directory.

willie e gary education: Historically Black Colleges and Universities Cynthia L. Jackson, Eleanor F. Nunn, 2003-09-16 A highly readable overview of the rich past of historically black colleges and universities, and how their role in higher education is evolving for the future. Historically black colleges and universities (HBCUs) have influenced African American lives and communities since 1837. *Historically Black Colleges and Universities* provides a past and present look at their role in higher education. This volume addresses why these institutions exist, how effective they've been, and if today's 103 HBCUs are still necessary. Special attention is given to the years since 1954 and to desegregation cases such as *Brown v. Board of Education*, *United States v. Fordice*, and other judicial decisions. The volume highlights government relations, leadership, and philanthropy as they apply to HBCUs. Also, a chapter provides a case study of the Historically Minority Universities Bioscience and Biotechnology Program Initiative, and a final chapter suggests research agendas for the 21st century.

Sesay Ph.D., 2015-07-31 This book chronicles my 15-year sojourning at one of America's historic institutions Shaw University, founded in 1865 and located in North Carolina, United States of America. It focuses attention in two major areas academic advising and multicultural education because of the influence these two areas can have on students retention and graduation. Research reports on my studies of students evaluation of their academic advising program and advisement of special student populations such as student-athletes constitute the book's academic advising component. Exploration of the experiences of the university's female faculty, the experiences of traditional and non-traditional students taking classes together, and the educational and cultural experiences of white students living and studying as a minority group in a predominantly black institution covers

the books multicultural education thrust. The personal satisfaction or psychic incomes which I acquired from my students, faculty colleagues, and administrators are documented in a variety of personal notes, greeting cards, and emails. I hope that the book will inspire others to write about their experiences and update the studies I did and others addressing new problems relevant to the improvement of education at this great institution, as it continues pursuing its motto Strides to Excellence: Only the Best.
