wilton continuing education wilton ct: Political Sociology of Adult Education Carlos Alberto Torres, 2013-09-03 Critical Theorist Carlos Alberto Torres offers a political sociology of adult learning and education, based on Critical Social Theory and the always inspiring work of Paulo Freire. Empirically grounded and theoretically sophisticated, this new book follows the footsteps of his classic book published in the early nineties The Politics of Nonformal Education in Latin America. Torres book offers comparative and international sociological analyses of adult learning and education, an area in which there is an obsession with 'practice' and an aversion to theory, with some notable and laudable exceptions, but which has the potential to provide avenues for social justice education in ways that no other systems and policies can. This book revitalizes social theory in education, and provides ample evidence of the power of adult learning and education, examining a variety of policy documents connected with the various adult education congresses promoted by the UNESCO, which are thoroughly scrutinized for what they bring to or omit from the policy agenda. In the context of new developments in adult learning and education, particularly the impact of multiple globalizations, neoliberalism, and the new role of international organizations in reconceptualizing lifelong learning, new evidence-based research, new narratives, and the vibrancy of social movements striving for a new and possible world, it is clear that new theoretical designs were needed making this is a must-read book.

wilton continuing education wilton ct: **Education for Wicked Problems and the Reconciliation of Opposites** Raoul J. Adam, 2016-02-26 The recognition and reconciliation of 'opposites' lies at the heart of our most personal and global problems and is arguably one of the most neglected developmental tasks of Western education. Such problems are 'wicked' in the sense that they involve real-life decisions that have to be made in rapidly changing contexts involving irreducible tensions and paradoxes. By exploring our human tendency to bifurcate the universe, Education for Wicked Problems & the Reconciliation of Opposites proposes a way to recognise and (re)solve some of our most wicked problems. Applying an original theory of bi-relational development to wicked problems, Adam proposes that our everyday ways of knowing and being can be powerfully located and understood in terms of the creation, emergence, opposition, convergence, collapse and trans-position of dyadic constituents such as nature/culture, conservative/liberal and spirit/matter. He uses this approach to frame key debates in and across domains of knowledge and to offer new perspectives on three of the most profound and related problems of the twenty-first century: globalisation, sustainability and secularisation. This book is a comprehensive study of dyads and dyadic relationships and provides a multidisciplinary and original approach to human development in the face of wicked problems. It will be of great interest to students and academics in education and psychosocial development as well as professionals across a range of fields looking for

new ways to recognise and (re)solve the wicked problems that characterise their professions.

wilton continuing education wilton ct: Your Sister in the Gospel Quincy D. Newell, 2019-04-05 Dear Brother, Jane Manning James wrote to Joseph F. Smith in 1903, I take this opportunity of writing to ask you if I can get my endowments and also finish the work I have begun for my dead.... Your sister in the Gospel, Jane E. James. A faithful Latter-day Saint since her conversion sixty years earlier, James had made this request several times before, to no avail, and this time she would be just as unsuccessful, even though most Latter-day Saints were allowed to participate in the endowment ritual in the temple as a matter of course. James, unlike most Mormons, was black. For that reason, she was barred from performing the temple rituals that Latter-day Saints believe are necessary to reach the highest degrees of glory after death. A free black woman from Connecticut, James positioned herself at the center of LDS history with uncanny precision. After her conversion, she traveled with her family and other converts from the region to Nauvoo, Illinois, where the LDS church was then based. There, she took a job as a servant in the home of Joseph Smith, the founder and first prophet of the LDS church. When Smith was killed in 1844, Jane found employment as a servant in Brigham Young's home. These positions placed Jane in proximity to Mormonism's most powerful figures, but did not protect her from the church's racially discriminatory policies. Nevertheless, she remained a faithful member until her death in 1908. *Your Sister in the Gospel* is the first scholarly biography of Jane Manning James or, for that matter, any black Mormon. Quincy D. Newell chronicles the life of this remarkable yet largely unknown figure and reveals why James's story changes our understanding of American history.

This reference book provides building blocks to help improve the outcome of online coursework and discusses social presence to help improve performance, interaction, and a sense of community for all participants in an online arena. This book is of essential use to online educators, administrators, researchers, and students.

wilton continuing education wilton ct: Coaching and Mentoring Simon Western, 2012-07-18 *Coaching and Mentoring: A Critical Text* is a unique contribution to the field. It traces coaching influences back to pre-modern times showing connections with 'soul healers' of the past, taking a journey through modernity to post-modernity and making links that helps us better understand coaching today. Positioning coaching as working between the 'wounded-self' (of therapeutic culture) and 'celebrated-self' (of the human potential movement), it reveals four discourses that underpin contemporary coaching practice: 1. The Soul Guide Coach: coaching the 'inner-self', focusing on values, authenticity and identity. 2. The Psy Coach: coaching the 'outer-self', using psychological techniques to focus on personal performance and how we relate to others. 3. The Managerial Coach: coaching the 'role-self', focusing on work, task, output and productivity. 4. The Network Coach: coaching the 'networked-self', focusing on the wider networks in which we live and work. This vital new book brings a fresh and critical perspective on coaching and mentoring, challenging its taken-for-granted assumptions and narratives. It is written by a practitioner-scholar, and develops an exciting vision for coaching today. Key features: Accounts for the diverse influences on contemporary coaching practice Reveals how coaching is the new 'post-modern confessional' Develops a meta-theory of coaching that acts as a baseline for future developments Offers frames of thinking to guide coaching and mentoring practitioners and educators.
